

Funding Acknowledgment Policy

Communications produced under a CDC cooperative agreement must bear an acknowledgment and disclaimer, as appropriate. This requirement applies to PRC Core and Special Interest Projects awards including CPCRN. The award document recommends the following statement:

This publication (report, peer-reviewed manuscript, peer-reviewed presentation, tool, etc.) is a product of a Health Promotion and Disease Prevention Research Center supported by Cooperative Agreement Number (add Cooperative Agreement Number) from the Centers for Disease Control and Prevention. The findings and conclusions in this report [peer-reviewed manuscript, etc.] are those of the author(s) and do not necessarily represent the official position of the Centers for Disease Control and Prevention.

- a. If there are multiple CPCRN centers involved in the research product, the cooperative agreement number for each member center should be listed.
- b. Furthermore, the main title slide of all CPCRN presentations and homepage of all CPCRN websites must include the above statement AND must include the PRC logo (see below).
- c. For research products from CPCRN4 or earlier, NCI must also be included in the statement above.

Cooperative Agreement Numbers (2019-2024)

CPCRN Center	Cooperative Agreement #
Colorado School of Public Health	U48 DP006399
Emory University	U48 DP006377
New York University School of Medicine - CUNY	U48 DP006396
University of Arizona	U48 DP006413
University of Iowa	U48 DP006389
University of North Carolina at Chapel Hill	U48 DP006400
University of South Carolina	U48 DP006401
University of Washington	U48 DP006398

**See the member resources section of the CPCRN website for previous cooperative agreement numbers.*

CDC Publications Clearance Policy

All publishable products with CDC staff listed among the authors must receive formal clearance from the agency before publishing. This includes *employees of CDC*, but does not include employees of other universities/CPCRN Network Centers that receive CDC funding. Clearance is to be coordinated by the first-listed CDC author. The CDC clearance process must happen *after* a final draft is ready, but *before* the draft is submitted to the publishers for review. When preparing a publication for submission to publishers, authors should leave ample time (at least 4-6 weeks) in between completion of the document and submission to publishers to allow for CDC clearance. Products requiring formal clearance include, but are not limited to manuscripts, journal articles, book chapters, abstracts for meetings, and website content. For more information, see: <https://cpcrn.org/member-resources?open=policies>.
