## **Cancer Prevention and Control Research Network Logic Model**

## A INPUTS **ACTIVITIES OUTCOMES B** Organizing C Network . **D** Network **E** Proximal F Distal C1 D1 B1 A1 CPCRN Improved Cancer Related Organizational Increase the A. Develop and Health Behaviors: Structure **Build Capacity** Identification, Facilitate Network Reduced Consumption with Partners Delivery, Infrastructure of Tobacco Products about Evidence-Maintenance, and Infrastructure Workgroups, · Increased Sun Safety **Based Approaches** Support Evaluation of Steering Committee, Improved Dietary to Cancer EBAs by Partners and Network Behavior Prevention and Meetings: Policies · Increased Physical Member-Center Control and Procedures) Activity Capacity · Enhanced Cancer B. Engage and Survivorship and Coordinating Collaborate with Quality of Life Increased **Outside Experts as** Center Capacity Funding, Necessary Presentations, National, State, Affiliate Members and Publications Community, and **Use Promising** Local Organizations Dissemination CDC/NCI Adopt Evidence-Strategies to Reduced Address Research **Based Approaches** D3 Cancer The Guide to to Cancer Priority Areas and A. Develop Network Disparities, Community Specific Audiences Prevention and Vision and Priorities Morbidity, and Research Findings **Preventive Services** Control for Research Mortality Related to B. Create a Plan for Evidence-Based **RTIPs** Disseminating EBAs Recommendations into Practice Cancer Control Conduct Program C. Create a Process **PLANET** Evaluation, and Increased Informed to Promote the Visibility of CPCRN, Intervention, **Decision Making for** National and Replication, and Cancer Screening and its Members, and Reports, Plans, Regional Health Dissemination Increased Use of **Products** Policies Gener-**Priorities** Research: Seek **Effective Cancer** ated with State D. Create Strong Funding; Submit **Screening Tests** Processes for and National Level **Grant Applications** National and Cancer Programs Collaboration and Manuscripts Regional Health Disparities Data
